Rev. 44

Multiple small packages shipped on the same day to Celestica must be consolidated into one shipment. The supplier is required to combine multiple part numbers and purchase orders in one shipping container/on one pallet/ once AWB/HAWB

Shipments of comparable size, height, and density that are difficult to handle, and for which the combined gross weight exceeds 150 pounds (68 kg) or are oversized should be palletized.

Consolidate items shipped on one day to the same destination on one pallet, one bill of lading, one air waybill or ocean bill of lading. The Carrier to be used for same day consolidated shipment will be based on the weight breaks listed below:

Below is the standard freight routings. Please coordinate all expedites, express freight and ocean shipments with Celestica Singapore logistics contacts.

All Air shipment above 150kg but less than 500kg require SCM Planning Manager approval.

All shipments including Chicago/Los Angeles consolidation point shipments must include a commercial invoice. Please see international documentation requirements below.

See Chicago/Los Angeles consolidation point listed below for all USA origin shipments

For Air Shipment above 500kg will require Material Manager approval.

AIR shipment weights are based on chargeable weights (max of dimm weight and actual weight) when determining mode of transportation. See Page 3 for weight definitions and calculations

	Weight De	finitions and Calculations
Actual Weight:		
The weight of a package using a standard	scale rounded to the next full pound / KG. (Example: a 12 1/2 pound carton will have an "actual weig	int" of 13 pounds).
Dimensional (Volumetric) Weight:		
	lensity. The International Air Transport Association (IATA) volumetric standards is used to determine	the dimensional weight.
A calculation used to determine the three-	dimensional space the carton occupies: length x width x height measured in cubic inches or cubic cer	ntimetres.
Channachta Misinhi		
Chargeable Weight:	Il be the higher of the volumetric weight or the gross weight.
