Welcome to the Celestica Update on New Functionality being enabled in
ivalua

Thank you for your Support

At Celestica, we are committed to continuous improvement and providing our valued suppliers with a best-in-class experience. As part of this ongoing effort, we are continuing to roll-out upgrades to our indirect procurement practices – specifically, our Phase 2, Supplier Management.
We have implemented Ivalua, a leading platform for procurement and supplier management. We have enabled the sourcing and contracting activities and are now ready to go-live with the Supplier Management module.

This strategic initiative will replace manual, time-consuming processes with automated workflows, creating a more efficient and transparent experience for both Celestica and our valued suppliers.

What is Ivalua?

This platform is currently used by Celestica and our Suppliers to collaborate on sourcing and contracting activities. Specifically, Suppliers can:

- Submit quotes and/or proposals

- Communicate with the Celestica Indirect Procurement team

- Collaborate on contracts

Key Highlights and Changes for Suppliers As We Move to Ivalua

Highlight	What is the Impact
Consolidated platform	All supplier-related activities, including performance evaluations and issue management, will now be conducted within the Ivalua platform.
Enhanced communication	The platform facilitates direct communication between Celestica and suppliers, enabling real-time updates, feedback, and collaboration on improvement plans
Standardized processes	Ivalua provides standardized templates and workflows for performance evaluations, ensuring consistency and fairness across all suppliers.
Increased transparency	Suppliers will have greater visibility into their performance data, enabling them to proactively identify areas for improvement and track their progress over time.
